

The LANDIS-II LICENSE AGREEMENT

For questions or further information regarding this software or this license, please contact Dr. Robert Scheller (rmscheller@wisc.edu) or visit us at <http://landis.forest.wisc.edu/>

Preamble

We have designed LANDIS-II to encourage and support collaboration wherever possible. Our goal for distributing our model and/or source code is to promote collaboration, transparency, and scientifically rigorous research on spatially extensive landscapes. We encourage others to participate by not only using the model but also developing new ideas, new modules, and new research perspectives and in turn, sharing these accomplishments with the larger modeling community. With these goals in mind, we have developed the following license agreement to protect our intellectual investments and the investments of our collaborators, to protect us from liability, and to promote collaboration by keeping our license simple and our intentions clear. We ask that all Users and Developers share this vision.

Copyright

The LANDIS-II core model (henceforth, 'LANDIS-II Software') is copyright University of Wisconsin-Madison 2005. External ('plug-in') modules (henceforth, 'Extensions') may be copyright otherwise, please see the documentation for individual Extensions.

Disclaimer of Warranty

The LANDIS-II Software was designed by the University of Wisconsin-Madison and the USDA Forest Service (henceforth, 'Developers') for the express purpose of assisting researchers and land managers (henceforth, 'Users') in the evaluation of forest change over time. The LANDIS-II Software and Extensions written by the Developers is made available to Users "as is." By agreeing to the provisions set forth in the Disclaimer of Warranty, Distribution Agreement, and Limitation of Liability, User is permitted free use of the LANDIS-II Software. The Developers expressly disclaim, and User hereby expressly waives against Developers, all warranties, expressly or implied, including, without limitation, warranties of title, warranties of purpose, warranties of non-infringement or warranties as to any results to be obtained from any use of this software or any related documentation or information derived there from.

Distribution Agreement

The User may distribute the LANDIS-II Software and Extensions written or provided by the Developers exactly as the User received it under the terms of this agreement either alone or as a component of an aggregate software distribution containing programs from several different sources without payment of a royalty or other fee to the Developers. The User may NOT charge fees for the LANDIS-II Software or Extensions written or provided by the Developers without express written approval of the Developers. The User may NOT modify or delete any pre-existing copyright notices, change notices, or License text in the LANDIS-II Software.

"Source Code" means the preferred form for making modifications to Extensions written by the User, including all modules contained therein. The Developers do NOT grant permission to modify or distribute the LANDIS-II Software Source Code without express written approval of the Developers. The User may create Extensions to the LANDIS-II Software consistent with the rights granted by this License, provided that the User document modifications clearly and title all Extensions distinctly from the LANDIS-II Software or previously existing Extensions. The User must document any modifications made to the Extensions written or provided by the Developers, including the nature of the change, the authors of the change, and the date of the change. This documentation must appear both in the Source Code and in any documentation distributed with the User created Extensions.

Limitation of Liability

The Developers shall have no liability with respect to its obligations under this permit or otherwise for consequential, exemplary, special, indirect, incidental or punitive damages even if it has been advised of the possibility of such damages. This limitation applies to all causes of action or claims in the aggregate, including breach of warranty, indemnity, negligence, strict liability, misrepresentation, and other torts. This royalty-free permit herein reflects, and relies upon, the allocation of risk and the exclusion of consequential damages set forth.
